### **INSTRUCTIONS FOR COMPLETING DATAFILE NO. 2**

The next 33 fields are used to record advertising, merchandising, or promotion expenditures in the United States for the specific categories requested by the FTC. Please provide information for items 5-33 in thousands of dollars. Expenditures may be rounded to the nearest thousand dollars. For example, \$1,234,567 should be reported as either 1234.567 or 1235, not as 1234567.

The Commission is requesting that expenditures on cigarette advertising, merchandising, or promotion in the United States be reported only at the brand level, rather than at the variety level.

The Commission is also requesting that expenditures on cigarette advertising, merchandising, or promotion in the United States that are not attributable to or in connection with any specific brand of cigarettes be reported in a “non-brand specific” record. Examples of such expenditures might include, among others, Category A expenses advertising or promoting all cigarettes generally or all of the Company’s cigarettes but not any specific brand of cigarettes and Category W expenses.

To the extent practicable, third-party agency fees relating to cigarette advertising, merchandising, or promotion should be reported in the categories of advertising or promotion to which those fees relate. For example, agency fees related to magazine advertising should be reported in Category B, agency fees related to point-of-sale advertising should be reported in Category F, and agency fees related to advertising on any Company web site should be reported in Category W. To the extent that third-party agency fees relating to cigarette advertising, merchandising, or promotion cannot be divided based on the materials to which they relate, they should be reported in Category AA.

Do not report any expenditures on this line that have not also been reported on lines 5-32. For example, sponsorship of a sporting event that is reported on line 20 would also be reported on line 33; and a miscellaneous expenditure for sponsoring a sports or racing team would be reported on lines 23 and 33. "Sports and sporting events" include, but are not limited to, football, basketball, baseball, hockey, tennis, wrestling, karate, judo, weight lifting, volleyball, skiing, skating, sailing, boating, equestrian, rodeo, automobile, race car, funny car, motorcycle, bicycle, truck, monster truck, tractor-pull, fishing, or hunting events, competitions, tournaments, or races.

OTHER EXPLANATORY NOTES FOR DATAFILE NO. 2

Expenditures on lines 5-31 should be included in only one category, except for any amounts also reported on line 33 (sports). Reportable expenditures (lines 5-31) should equal the total on line 32, and should equal the total cost to the Company of administering the activity involved, including commissions and other payments made to separate organizations, such as advertising agencies. In addition, expenditures reported on lines 5-33 should include all expenditures for advertising and promotion relating to cigarettes, regardless of whether the advertising or promotion would constitute “commercial speech” or would be protected from law enforcement action by the First Amendment. However, such expenditures should not include the costs of employing full-time employees of the Company or any overhead expenses attributable to the activities of such company employees.

The financial accounting procedure to be used in assigning an expenditure to a particular calendar year should be the accrual rather than the cash basis method of accounting.

You are advised that penalties may be imposed under applicable provisions of federal law for failure to file special reports or for filing false reports.

The Special Report called for in this Order is to be filed on or before June 30, 2020.

By direction of the Commission.
